

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	18 jun 2026
Team ID	Individual project
Project Name	Complaint Ease: Online Complaint Registrations and Management System
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

In many organizations, institutions, and service sectors, complaint handling is often performed manually, leading to delays, lack of transparency, inefficient tracking, and poor communication between users and administrators. Users face difficulties in monitoring the status of their complaints, while administrators struggle to manage and resolve complaints effectively.

To address these challenges, a web-based Complaint Ease system is proposed. The system will allow users to register complaints online, track complaint progress, receive updates, and enable administrators to manage and resolve complaints efficiently through a centralized platform.

Reason for Selecting the Problem

- Addresses a real-world issue.
- Improves complaint management efficiency.
- Enhances transparency and accountability.
- Suitable for implementation using the MERN Stack.
- Provides practical experience in full-stack web development

Step-2: Brainstorm, Idea Listing and Grouping

Functional Requirements

User Module

- User Registration
- User Login
- Password Recovery

- Profile Management

Complaint Module

- Submit Complaint
- Upload Supporting Documents
- Select Complaint Category
- Track Complaint Status
- View Complaint History

Admin Module

- View Complaints
- Assign Complaints
- Update Status
- Resolve Complaints
- Manage Users

Notification Module

- Complaint Submission Confirmation
- Status Update Notifications
- Resolution Notifications

Reporting Module

- Complaint Statistics
- Monthly Reports
- Resolution Analysis

Security Features

- JWT Authentication
- Password Encryption
- Secure Database Access

Technology Stack

- React.js (Frontend)
- Node.js (Backend Runtime)
- Express.js (Server Framework)
- MongoDB (Database)

Step-3: Idea Prioritization

High Priority (Must Have Features)

- User Registration and Login
- Complaint Submission
- Complaint Tracking
- Admin Dashboard
- Complaint Status Updates
- Complaint Resolution

Medium Priority Features

- Email Notifications
- Reports and Analytics
- User Profile Management

Low Priority / Future Enhancements

- AI-Based Complaint Classification
- Mobile Application
- Chatbot Support
- Multi-language Support
