

Ideation Phase

Empathize & Discover

Date	18 june 2026
Team ID	Individual project
Project Name	Complaint Ease: Online Complaint Registrations and Management System
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Empathy Map (Target User: Student/Citizen/Customer)

THINK & FEEL

- My complaint should be resolved quickly.
- I want transparency in the complaint process.
- I need updates regarding my complaint status.
- I expect a simple and user-friendly platform.
- I feel concerned when complaints are ignored.

HEAR

- Friends complain about delayed complaint resolution.
- People say complaints often get lost in manual systems.
- Administrators encourage using digital complaint systems.
- Organizations emphasize customer satisfaction.

SEE

- Long waiting times for complaint resolution.
- Lack of communication from authorities.
- Manual complaint registers and paperwork.
- Existing systems with poor tracking facilities.
- Increasing use of online service platforms.

SAY & DO

- "I want to know the status of my complaint."
- Submit complaints through available channels.
- Follow up repeatedly for updates.
- Search for faster ways to register complaints.
- Expect quick acknowledgment and resolution.

PAIN

- No visibility of complaint status.
- Delayed responses and resolutions.
- Complaints may be misplaced or ignored.
- Time-consuming manual processes.
- Lack of accountability and transparency.

GAIN

- Easy online complaint registration.
- Real-time complaint tracking.
- Faster complaint resolution.
- Transparent complaint handling process.
- Improved communication between users and administrators.
- Increased user satisfaction and trust.
